

Duplicitous

Writing is easy
you just let your insides out

Go for it
put it all down as it comes to mind

Editing is hard
like the angel and the devil
double shoulder shouting inside your head

“Just what I wanted to say!”
“*Are you sure about that?*”
“Everyone should know what I feel!”
“*Doesn't their empowerment weaken you?*”
“God – That's the perfect line!”
“*Do you really want THEM to know THAT about you?*”

Writing
may not be
exactly what I want to do
right now
